

Supplies/Durable Medical Equipment Waiver

As a service to our patients at Frisco Physical Therapy, we offer multiple supplies and durable medical equipment to assist in your recovery. However, your insurance carrier may not consider the item deemed as medically necessary or many not considered a covered benefit. Therefore, we will bill Durable Medical Equipment (DME) but not supplies. Please ask your therapist, prior to purchase, if the item you are purchasing is a DME or supply.

At Frisco Physical Therapy we contract with several insurance carriers. Regardless of what your insurance plan that you are on, it is our goal to offer quality of medical treatment that you deserve. Therefore, we are requesting that you sign this waiver recognizing that your insurance will not be billed if you are purchasing a supply. If you are purchasing a DME, our office will file your claim with the included item; however, if the item is not a covered benefit you will be held financially responsible. Please keep in mind, items are not returnable according to federal health guidelines. If the item is defective, we will exchange the item.

Beneficiary's Acknowledgement

I have been notified by Frisco Physical Therapy policy of Supplies and Durable Medical Equipment. If I purchase a DME and it is denied by my insurance carrier, I understand that I will be held financially responsible. **I also understand that this purchase is not returnable unless it is defective and I will be given a replacement product.**
